### A House Committee Does Not Like the Opium Bill.

#### ON A HIGH MORAL PLANE

Critiques Construction of Act. Board of Health and Physicians—Officials.

The act placing use of opium in the Islands under control of the Board of Health has passed the Senate. The adverse report given below has been presented in the House, but the act has some strong advocates in the lower branch and the fight will be a close one. The committee says:

The claim of those who favor the act is that it will put an end to smuggling of opium and that it will restrict its use. This claim your committee does not think can be good. Inquiry shows that though it may make the gains of the smuggler less, there will still be inducement for him to smuggle. As to the restriction of its use, your committee sees that the act provides that opium shall only be supplied to those who are now habituated to its use, but what is to prevent those who have never used it, thereby swelling the number of its users, who will in time, demand their supply of the legal purveyor of the institution created by law to pander to the appetites of the victims of this habit.

Under Section 1, your committee would point out that there is no proper definition of opium. For instance, the form of opium used for smoking is not the medicinal opium, nor can opium as prepared for smoking be used in medicine or for the manufacture of medicinal preparations of opium.

Under Section 2, the Board of Health is constituted a body for the importation of that which is forbidden to firms and individuals; the importation of an article which all agree is the most harmful and degrading drug within the reach of man. Boards of Health are constituted to conserve the health of people, they should not be the agents that assist in hastening them to a miserable grave.

Section 3 is one that will strike every one who gives it thought as essentially a vicious one. The Government Physician, the District Magistrate and the Sheriff or Deputy Sheriff, of the different judicial districts, are, by this act, constituted an "Opium Board." Would any one propose the appointment of Government officials to act as a board to allow other vice incentives to weak humanity?

Can any one think that a self-respecting educated physician, one whose mission in life is to heal the sick, restore to health the afflicted, and lead to a higher hygienic life, would so far forget his duty and his calling as to serve on a Board whose duty it is to serve out the means of degradation to fellow creatures? And what would be the action of our Board of Health supposing any Government physician refused to serve on an Opium Board? As the law reads there must be a Government physician on the Board, and should a conscientious man refuse to serve there would be nothing to do but cancel the commission and appoint a man who could put his conscience in one pocket, while he put dollars in the other.

Then consider another member of the "Opium Board," the District Magistrate. On the one hand, he is the dispenser of justice, on the other he furnishes a victim with the means of crime. This is an anomaly which is self-apparent and self-convicting. An opium smoker might commit a crime under the influence of the drug and might have to be sentenced to punishment by the very member of the Board who assisted in furnishing him with the drug.

One of the many reasons that are advanced for the licensing of opium, is that unlicensed it corrupts the officials. While we have good material both among District Magistrates and Deputy Sheriffs, it does not seem as if there is any better material than there has been among our police and customs officials and the means of corruption are as likely to be used to defeat the present law, as ever they were to defeat prohibition of the drug. The act provides that no minor shall be enrolled on the list of habitual users. This will not, cannot, from the very circumstances of the case, prevent minors from obtaining access to the drug through the habitual users, whether from curiosity, weakness or as a bribe to greater crime and misfortune.

Under Section 4, the Board of Health will have to furnish the Opium to the Opium Boards, in such quantities as they, in their discretion, think sufficient. By whom and by what standard is the "quantity sufficient" to be determined? Who of the Board, unless he be a user of opium, can say when the "quantity sufficient" has been reached?

A member of the Opium Board is required, by this act, to dole out to

each holder of a permit, fifty grains of opium a day. That is, on each and every day of the year, every holder of a permit, weaker, more debased, nearer to the end, by authority of law, by act of Government, will tremblingly approach this Government dispenser and obtain his further allowance in order that he may be still further degraded.

It is not necessary to go into the further details of this act. That those who support it are entirely honest in their views, is to be presumed. But that it will work harm and be a source of corruption appears on the very face of it. Aside from all political reasons, and these in the minds of the committee are strong, for it must be remembered that it was the attempt to pass an opium license bill and a lottery bill which finally overthrew the monarchy, was in fact the terrorism caused by that catastrophe, there is the consideration of the man's duty to man, no mere sentiment, but the duty of the stronger, the better in evolution, to his weaker, his less educated, the man further advanced advanced brother, not further to degrade him, rather to assist him as far as possible by removing from his path, by putting out of his reach, all means, all temptation which may further cast him down.

Your committee therefore recommends the bill be laid on the table. (Signed) A. V. GEAR, A. T. ATKINSON, D. H. KAHALALELO.

#### ESCAPE FROM THE DEEP.

Three Men in a Boat Have Quite an Adventure.

Mr. Campton and Lieut. Carlyle went out yesterday for a trial trip in a sloop for which Campton had been negotiating. "Rheumatism Jack" was the pilot. The party was near the center buoy at the mouth of the channel when it was discovered that the boat was making water in great rate. Without delay the sloop was put about for the harbor. All hands baled, but the flood gained headway rapidly. It was decided to make for the reef back of the lighthouse. Campton and Carlyle prepared to swim. "Rheumatism Jack" announced that he was helpless in water and would not be able to reach shore. The other two men said they would tow him in somehow. Just in the nick of time a native boatman came along. At this stage Campton and Carlyle were picking up the oars and gear of the sinking sloop. The native warned them that there were sharks in the vicinity and the two young men lost no time in joining "Rheumatism Jack" in the boat of the native. The sloop that was to be purchased lies at the bottom of about thirty feet of water. An attempt will be made to raise her. Carlyle and Campton are congratulating themselves on their escape and "Rheumatism Jack" will give a grand luncheon Saturday in honor of the native boatman.

#### SHAKESPEARE'S BIRTHPLACE.

The annual meeting of the trustees of Shakespeare's birthplace was held on the 5th of May at Stratford-on-Avon. It was reported that visitors representing 48 nationalities had paid for admission to the poet's house during the year, and that over 10,000 persons had visited Anne Hathaway's cottage at Shottery. The cottage had been very carefully restored, and all the ancient characteristics had been preserved. Some very valuable gifts to the museum and library had been made during the year, including a collection of over 100 Shakespearean books from the library of the late Mrs. Cowden Clarke. The trustees had also been presented with the original sale book, interleaved with notes of Mr. Robins, who sold Shakespeare's birthplace at the Auction Mart in London in September, 1847. Other gifts included a number of portraits and rare volumes.—London Times.

The band will play on the grounds of Queen Emma Hall, corner Nuuanu and Beretania streets, at 10:30 o'clock this forenoon.

## CAPT. DYER SPOKE

### Baltimore and Company in the Manila Fight.

#### PAMPHLET FROM CRUISER

Men So Well Known Here in Thick of the Fray—Note From the Printer.

Harry F. Humphrey, the printer of the U. S. S. Baltimore has a good many friends in Honolulu. Another man of the ship who made friends ashore here is J. A. Wisner, of Capt. Berryman's marines. These two have published aboard the Baltimore a pamphlet of fourteen pages giving some new matter on the famous battle of Manila. The little book is a very creditable production, with "Old Glory" in correct colors on the first page of the cover and this couplet on the last page:

When the din of battle was o'er  
Reverend were the boys of the Maine,  
We had made the enemy lower  
The flag of ancient Spain.

In enclosing the pamphlet to a friend on the Advertiser, Mr. Humphrey writes a characteristic note. He says:

"This little pamphlet will tell you all about the battle of Manila. The town is at our mercy. We are only waiting for troops to occupy it after we take it. We are not having much of a variety in the line of eating, but all are well. The beer is all gone and lots of the boys miss it. Please send us a few Advertiser's occasionally. We want Honolulu news very much."

Following are some interesting extracts from the work of Messrs. J. A. Wisner and H. F. Humphrey:

The fleet left Mirs Bay at 2 p. m. Wednesday, April 27th, after this ship had been taken on board the U. S. S. Consul to Manila as passenger. That evening our suspense was brought to a close by Captain Dyer assembling all hands on the quarter-deck, reading us a statement from the Governor-General of the Philippine Islands to a Hong Kong newspaper, in which he stamped the United States as a "Nation without a history, populated with the scum and offal of Europe, and a Nation capable of any desecrating deed," adding numerous other insults tending to ignite a spark of hate for all that was Spanish in the heart of even the most conservative American, he he such by right of birth or by adoption. When Captain Dyer in closing said: "Men we are now going to Manila under orders from our Government to capture and destroy the Spanish fleet and we can do it," the ships company fairly went wild with excitement, the air was rent with loud cheers, and when he added: "If I ever entertained such a thing as a doubt about the boys of the Baltimore at a time like this, it had been entirely removed, and I know now that we'll succeed," he was given three cheers with a will. He then introduced Mr. Williams, U. S. Consul to Manila, who in a few well chosen words told us about the situation at that port and gave us a brief outline of the work before us. He was also loudly cheered. Every body turned in that night with his mind perfectly at ease and if there was anybody among us that was the least bit afraid, he did not show it.

We were now at sea steaming slowly in the following order: Olympia, Baltimore, Raleigh, Petrel, Concord and Boston, forming one column, and the McCulloch, Nanshan, and Zafiro, forming another to our starboard. The time was taken up by getting everything ready, sending spare gear below, hoisting woodwork such as mess chests, tables, benches and partitions overboard, securing and covering boats, etc. On Saturday night we were nearing the entrance to Manila Bay, and a sharp lookout was kept. We were going in under cover of darkness and right below and in range of their guns frowning down from forts on both sides of the entrance. No lights were shown except a stern light on each ship. All hands were at quarters and all guns loaded, with extra charges ready at hand; every eye was strained and every ear was on the alert to catch the slightest sound. Now and again lights could be seen flashing from the surrounding hills-tops and an occasional signal flared up at one moment to be swallowed by the unbroken darkness the next. At twenty minutes past twelve there was a sudden flash inshore and about our starboard quarter, followed a second or two later by a dull report and that peculiar awe-stricken swishing sound of a flying projectile—the first shot had been fired and the game was on! Owing to the darkness or to the poor marksmanship of the Spaniards, that shot flew wide of its mark, as did two more fired in rapid succession from the forts and answered by the Raleigh and Boston. When day broke on that never to be forgotten Sunday morning, May the 1st, Manila harbor with its handful

of merchant vessels bore right ahead, and off our starboard bow we could make out the enemy's fleet dimly looming up in the early dawn lying outside of Point Cavite, their fortified Navy Yard and general stronghold. The Olympia was steaming slowly at the head of the column, the Baltimore a couple of ship-lengths astern of her, and the balance of fleet following. The McCulloch and the transports were left standing off in bay. The most critical moment of our lives was drawing near, and when at 5:05 the flagship made signal: "Prepare for general action," when the Stars and Stripes were broken at every masthead and every peak, when Captain Dyer solemnly pointing up at the waving folds of "Old Glory," said: "There it goes, men; we have an empty stomach this morning, but we have a full heart; now let us see, what we can do under this flag," when every man silently took his station, there was nothing but grim determination to "do or die" to be seen written on every face. The Spanish were again on the aggressive for at 5:15 they fired a shot from one of their forts, following it up by a regular fusillade from their vessels and shore batteries. The most of their shots fell short and a

CAPT. N. M. DYER,  
U. S. S. Baltimore.

few carried over us, dropping into the bay all around the ships, too far off to do any damage, but yet too close for comfort. We seemed in no hurry to return the fire, and fully 25 minutes were spent in maneuvering for position, the range being diminished steadily if slowly by our fleet steaming closer and closer right in the teeth of the enemy's fire. Those minutes seemed hours, and some our men were actually begging permission to shoot. At last the first shot was fired by our ships at about 6,000 yards range, and the battle was on in earnest. A small torpedo boat was seen to emerge from the shore making for our transports at a high rate of speed. The secondary batteries of our ships were made to bear on her, shells fell around her in a veritable shower, and finally turning she was rung high and dry on the beach and abandoned. Our fleet was now steaming back and forth off Cavite Bay, making three "legs" to eastward and two to westward, forming a large figure "8" and delivering broadside after broadside with splendid results. All this time the enemy's vessels Reina Christina (flagship), Castilla, moored head and stern with port battery in use, Don Antonio de Ulloa, Isla de Cuba, Isla de Luzon, the large transport Mindanao and a number of smaller gunboats, were keeping a steady fire, the smaller ships retreating inside of mole several times during action. The forts were not idle but kept thundering forth their tribute with no noticeable effect. The enemy's fire seemed to be concentrated on the Baltimore, and she was hit six times. A 4.7 inch armor piercing shell punctured our side on main deck line, tore up the wooden deck and, striking the steel deck under this glanced upwards, went through after engine-room hatch and emerging struck the cylinder of port 6-inch gun on quarter-deck temporarily rendering the gun unfit for use. In its mad flight it also struck a box of 3-pound ammunition, exploding one shell which in turn slightly wounded a few of No. 4 gun crew. The other hits were as follows: One shell pierced our starboard side forward of No. 2 sponson and lodged in a clothes-locker on the berth deck; another one struck us on our port beam a little above the water-line, and a few feet forward of and above this another shell came crashing across the berth deck striking a steam pipe and exploding behind starboard blow-off-engine with no serious results. A fragment of a shell went through one of our ventilators and the Colors at our main were shot through during the first part of action. The concussion from our 6-inch guns on poop shattered our two whale-boats and they had to be cut adrift. The engagement lasted from 5:43 until 7:35 a. m., when the flagship signalled: "withdraw from action." We then stood out in the bay, the men left their stations and "mess-gear" was sounded. There was hand-shakings and congratulations on every hand as smoke-begrimed friends, parted during the battle, met again, and loud were the cheers that went up from the various ships in passing.

The pamphlet tells of more fighting and of the surrender.

#### For the Championship.

Willie Roth, the victor in the tournament just finished, was challenged by the champion of 1897, Will Godfrey. The match has been set for Wednesday at 4 o'clock on the Pacific courts.

## AT THE PARTING

### Highest Commendation Given Rev. D. P. Birnie.

#### A COUNCIL RESOLUTION

Representation—Proceedings in Detail—Resignation and Acceptance.

Ecclesiastical Council held in Central Union Church, June 8, 1898.

Pursuant to letters missive, an Ecclesiastical Council assembled at the house of worship of the Central Union Church, Honolulu, June 8th at 4 p. m., to advise in regard to the resignation of the Pastor Rev. Douglas P. Birnie. The letter missive was read by Rev. C. M. Hyde, D. D. Rev. O. P. Emerson was chosen Moderator and Rev. C. W. Hill, scribe. Prayer was offered by the Moderator. The roll of the Council was completed.

The list of the churches and delegates is as follows: Kawaiahae, Honolulu, Rev. H. H. Parker, D. L. Naone, Kaunakapili, Rev. E. S. Timoteo, Chinese, Mr. Goo Kim, Japanese, Rev. T. Okumura, Portuguese, Rev. A. V. Soares, Mr. Felix Tranguada, Union Church, Kohala, Rev. C. W. Hill, Foreign Church, Makawao, Maui, Mr. H. P. Baldwin. Also Rev. Hiram Bingham, D. D., Rev. O. H. Gulick, Rev. J. M. Lewis, Rev. C. M. Hyde, D. D., Rev. O. P. Emerson, Rev. J. M. Lydgate, Rev. S. E. Bishop, D. D., and Rev. J. Leedingham, Committee of the Church. The Pastor's letter of resignation and the record of the action of the Church, conditionally accepting the same providing for the calling of the Council, together with the resolutions adopted by the church, were read by the clerk. No other statement being offered, it was voted that the papers be accepted as in due form and order, and that the council approves the action of the church and recommends that the pastoral relation be dissolved. A committee consisting of the Rev. H. H. Parker, the Moderator, and the Scribe, was appointed to prepare the result of the Council and made the following report:

Resolved: That while endorsing the action of the church and Pastor, we desire to say for ourselves that it is with sincere regret that we part with one whom we have learned to esteem very highly. Rev. D. P. Birnie's pastorate in Honolulu, though brief, has been fruitful. Through the leadership by the blessing of God, large additions have been made to the Church roll, while as pastor and preacher he has endeared himself to the hearts of his people. He as proved himself well adapted to work for the young, especially young men. In organizing and carrying out plans for the moral and intellectual improvement of the youth of this city, we believe he has had no superior. We feel assured that this historic field of religious effort has been greatly blessed by his ministry, and that the best wishes and earnest prayers of God's people will follow him into other parts of the Master's vineyard, where he may be called to labor. We affectionately commend him to the churches, as a man of lofty Christian character, a wise pastor, and an effective preacher of the vital truths of the Gospel. We congratulate the members of this church on the service which has been rendered them, and pray that upon them the divine blessing may still rest; that the Great Head of the Church may send them another leader of like wisdom and devotion.

The Scribe was ordered to send a copy of this proceedings to the Rev. D. P. Birnie, and to the clerk of the church and the Council dissolved.

OLIVER P. EMERSON,  
Moderator.  
CHAS. W. HILL,  
Scribe.

#### St. Andrew's Fair.

The fair in the Sunday School rooms of St. Andrew's Cathedral Saturday and evening proved a very great success and the handsome sum of \$475.00 was cleared. The band, stationed in front of the cathedral, furnished music and attracted large crowds to the fair. The Sunday School rooms were prettily decorated and the various booths presented a gala appearance. Doubtless more would have been present in the evening but for counter attractions.

The Waiialeale is expected in today.

## A BULLET WOUND

Pistol Cartridge Sent Into Breast of Andrew Davis.

IS IN A CRITICAL CONDITION

At the Hospital—Shot By Wm. Hamilton—A Surrender to the Police—A Drunken Row.

No additional sentences will be required to include a temperance lecture in this account of a shooting. The lesson strong as it can be given, goes with the latest report. Wm. Hamilton, a young white man, who has been here since 1893, is in the No. 1 cell at the Police Station. Moaning and twisting and struggling for life on a cot at the hospital lies Andrew Davis, a young half-caste. Hamilton shot Davis Saturday night. This was in Hamilton's room on Queen street, back of the Wilder & Co. establishment. Davis has been employed for a long time at Tom Hollister's horse shoeing shop. Hamilton for a year or two has had charge of stock for Wilder & Co. The men were friends of long standing. Davis was supposed to be dying Saturday night, but was better yesterday and last night. The doctors and nurses say he has about an even chance. A pistol bullet—38 caliber in size—entered Davis' body just above his heart. It passed through the lung and stopped just at the skin immediately beneath the small of the back.

Hamilton came to the Police Station at 8:30 Saturday evening and said he had just shot a man. This was told to Capt. Parker. Hamilton was very much excited, very nervous, said he wished he had killed himself and urged that a surgeon be sent to the man wounded. Hamilton and a Pake who accompanied him went below and Capt. Parker started to look after the victim of the shooting. Davis was found lying on his back in Hamilton's room. The wounded man was taken to the hospital so soon as possible.

Dr. N. B. Emerson, Mr. Eckhart of the hospital and a couple of nurses gave Davis attention. Mr. Eckhart put his hand under Davis' body while Dr. Emerson was probing and felt the bullet. As Davis was turned over the blood gushed in a stream the size of the hole. The bullet was felt, an incision made and the battered piece of lead removed. All night Davis was very restless. When it was thought he was dying he refused positively to make a statement and all of yesterday and last night was in the same reticent or stubborn mood. When asked who shot him he answered: "Nobody; I got hurt." Davis did a good deal of swearing while his wound was being dressed and all through the night when awakened by the pain. An attendant stood over him constantly to prevent him removing the bandages. He is a strong fellow, with lots of vitality and may pull through, though sorely hurt. Davis is very well known around town and has been regarded as a troublesome man when in liquor.

The police found in Hamilton's room what the drinkers had left of a gallon of wine. Davis had a flask of the liquor in one of his pockets.

Hamilton was quite willing to talk at the Police Station last night. He expressed the deepest contrition over the fact that he had hurt Davis, as he said they had been friends for a long time. According to Hamilton the two men had been in the room drinking and talking and smoking from very soon after 4 o'clock to a short time after 8. Both were quite drunk. Hamilton wanted Davis to go home. Davis refused to leave the cottage and replied with oaths and threats. Once he started away after being given the bottle of wine. Then he came back. By this time Hamilton was thoroughly frenzied and Davis was tantalizingly contrary. Davis said he would not leave the place and Hamilton said he wanted the room left to possession of its owner. The quarrel became very warm and Davis more abusive than ever. Hamilton declared he would enforce his order at the point of the pistol and took the weapon from a trunk. Davis shouted that Hamilton was afraid to use the pistol and invited a bullet, saying he was not afraid of guns. The men were very close together. Somehow the shot was fired and Davis fell and the blood came in a rush from his breast. Davis was hit with the only bullet in the pistol. There were three empty shells. Then Hamilton went up to the Police Station with the Chinaman, a restaurant keeper, who had happened along.

Davis had his shirt and flesh burned from the powder of the cartridge. Hamilton went from the Fire Department to the employ of Wilder & Co. Before being a fireman, Hamilton had jobs as a teamster. At one time—the latter part of 1894 and early in 1895—he was in the Police Department. He was one of the men "held up" on the beach beyond Kakaako a

few night before the uprising of 1895 took place. Hamilton is a native of Vermont, but was in California for a time before coming to the Islands. Aside from his drinking he has been regarded as a worthy man. In a couple of days, when the nature of Davis' case is a certainty, Hamilton will be brought before the District Magistrate. If Davis dies the charge will be manslaughter in the first degree. If Davis survives his heavy wound the indictment will be for assault with a deadly weapon.

At 1:30 o'clock this morning Davis was quite low. His pulse was irregular and he was still losing blood.

### FOUR YEARS.

Boy Given Long Term in Reform School.

In the Police Court Saturday Kahili was sentenced to four years in the Reform school on the charge of larceny. He has been stealing from various places for some time back. Mark Robinson's office is one of the places that suffered from his nocturnal prowlings. He was caught by Detective Knappe while in the act of stealing something from a Japanese.

S. Mahaula was fined \$5 and costs on the charge of assault and battery. Pipili and Kamaka were each fined \$2 and costs for affray.

## A REGIMENT WIN

Honolulu Badly Beaten in Saturday's Game.

One-Sided Game After the Sixth Inning—Score of Fourteen to Four.

Had the baseball game of Saturday between the Regiment and Honolulu teams ceased at the sixth inning a good record would have been handed down but, unfortunately, this did not happen and the consequence is that a poor game will have to be scheduled. Up until the sixth inning the Honolulu had been playing the finest kind of ball. Barney Lemon was in the box and his work counted. At this stage Jackson was placed in the box and the Honolulu simply went all to pieces. They got wild, passed balls were frequent and the Regiment boys had a lovely time running bases. The scoring stopped here for the Honolulu, but the other team kept right on. The score at the end of the sixth inning was 7 to 4 in favor of the Regiment team while at the end of the game it was 14 to 4 in their favor. The Regiment team played in its old time good form and outdid the Honolulu boys in the matter of generalship. John Soper had the pleasure of umpiring the game all by himself. He did good work. The players were as follows:

Regiment—Moore, 2b; Jones, cf; Wilder, c; Lewis, rf; Gorman, 3b; Davis, 1b; Bower, ss; Killey, lf; Hart, p.  
Honolulu—Thompson, 2b; Dayton, c; Willis, 1b; Pryce, lf; Gleason, ss; Lushwa, 3b; Lemon, p; Kanoel, cf; Duncan, rf.

The score by innings was as follows:

Regiment.....123456789  
Honolulu.....030100000—4

The Regiment team will be materially strengthened on next Saturday by the addition of "Sonny" Cunha to its ranks. Cunha is expected back here on the steamer of the 22nd. It is well known that he has been playing great baseball in San Jose recently. The departure of Lemon, the crack pitcher of the Honolulu team, in the near future, means a serious state of affairs on the part of the wearers of the blue and white. It is to be hoped that these boys will be able to get some other players who will help them along.

### "GENERAL QUARTERS."

Alarm on Mohican Caused by W. G. Hall Lights.

At about 2:30 o'clock Sunday morning the Customs officers and others along the water front were startled by the sharp notes of a bugle aboard the U. S. S. Mohican, calling the whole ship's officers and men to "General Quarters." There were the rattle of chains, the sounds of orders given by officers and the general bustle of activity to be heard. Far out in the direction of Barber's Point could be plainly discerned a searchlight making what seemed to be, a series of signals. "Central" office had been informed by someone that a Spanish man of war was off port. The watchers on the Mohican had seen the light and were prepared for the worst. The men who had given up hopes of a fight felt that a special act of Providence had thrown a little something their way.

At about 4 o'clock the W. G. Hall came up the channel and then it was learned that the light that had created such a commotion was none other

than the searchlight on the deck of that steamer. The captain had decided to try it for the purpose of ascertaining what powers it had.

The Mohican people were unaware of the fact that some of the Inter-Island steamers are provided with searchlights. The men stood at "General Quarters" from 2:30 to 4 a. m.

A. H. Patter, with E. C. Atkins & Co., Indianapolis, Ind., writes: "I have never before given a testimonial in my life. But I will say that for three years we have never been without Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house, and my wife would as soon think of being without flour as a bottle of this Remedy in the summer season. We have used it with all three of our children and it has never failed to cure—not simply stop pain, but cure absolutely. It is all right, and anyone who tries it will find it so." ## Quality Repairing.

There is as big a difference in furniture as there is between selling cheap furniture and good furniture.

It is more to us to have any article left with us to be repaired or upholstered leave our shop and give entire satisfaction both in the class of work done and the price than it is to sell new furniture. New furniture of the grade we sell is bound to give satisfaction. We never allow a piece of furniture or upholstery to leave our shop until it has passed a critical examination.

By doing this we are convinced that it is as it should be—the best that skilled workmanship can accomplish, consequently our patrons are impressed with the class of work done.

Just at present we are doing some excellent work in

House Rests on One Appropriation  
Bill—More Questions Answered  
By Ministry.

## SENATE.

One Hundred-fourth Day, June 17.  
Notification was made that the President has signed the amendments to the land act.

The Finance Committee made their report on the books of the Board of Education. The report was received and placed on file.

The Passed Bills Committee reported that the bill permitting the manufacture and sale of wine from Hawaiian grown grapes had been presented to the President for his signature.

A communication was received from the House announcing concurrent action on the bill regulating the opening of streets through private lands.

Senator Baldwin reported favorably on the bill making new regulations for Chinese immigration. The committee recommended amendments. They reported that the depositors under the present laws numbered 7,000 and their funds aggregated \$162,000. The new features of the bill as recommended by them and as passed second reading is as follows:

"Conditional permits to enter this Republic may be granted by the Minister of Foreign Affairs with the approval of the Executive Council for such Chinese as shall be recommended by the Board of Immigration upon the application of employers of domestic, agricultural or mill labor, which said permits shall contain the condition, printed in both the English language and in Chinese characters, that the bearer is allowed to enter this Republic solely on condition that he gives a bond in the sum of \$50 liquidated damages, such bond to be signed by his employer as surety, and conditioned that while here he will engage in no trading or mechanical occupation other than domestic service or agricultural labor in the field or in rice or sugar mills, and that he will, whenever he shall cease to follow his vocation as agricultural laborer in the field or in sugar or rice mills or as domestic servant, leave this Republic, and that for every breach of such condition he shall on conviction by any District Magistrate be liable to a fine of one hundred dollars. For each conditional permit so granted the Minister of Foreign Affairs shall be paid a fee of one (\$1.00) dollar. Permits to enter this Republic may also be granted by the Minister of Foreign Affairs for any Chinese resident in this Republic at the date of the passage of this Act, provided that such person shall have resided within the Republic for two years immediately preceding such passage; and also to such other persons as may wish to sojourn temporarily in the Republic as travelers, or as merchants having business interests in this Republic; provided that such sojourn shall not exceed six months; and provided that such person so permitted to enter shall give a bond to said Minister, in the sum of five hundred dollars, liquidated damages, conditioned that he will leave the Republic within six months, and also all such persons who may wish to sojourn temporarily in the Republic, provided that such sojourn shall not exceed three years and provided that such persons so permitted to enter shall give a bond with good and sufficient surety to the said Minister in the sum of one hundred dollars, liquidated damages, conditioned that while he shall remain within the Republic he will not engage in trading or mechanical occupation other than domestic service or agricultural labor in the field or in sugar or rice mills, and that he will leave the Republic within three years. Any person who shall remain within the Republic after the expiration of the period mentioned in the bonds given by him to the Minister of Foreign Affairs under the provisions of this Section shall be guilty of a misdemeanor and shall upon conviction be imprisoned at hard labor for a term not to exceed six (6) months. For each permit granted under this Section the Minister of Foreign Affairs shall be paid a fee of five dollars."

The act repeals act 17 of Provisional Government and act 27 of the session laws of 1895. Third reading was set for Monday.

## HOUSE.

The following answers to questions propounded by Rep. Achi were presented by Minister Cooper:

Q. Is it not a fact that the balance due the J. K. Nahale contract has been collected? If not, has it been drawn from the Government department?

A. The balance due on said contract, amounting to \$230, was paid by draft dated December 31, 1897. Upon voucher approved by Mr. Rowell, Superintendent of Public Works.

Q. If paid, in whose possession is the money at the present time?

A. Mr. Rowell informs me that he is holding the money for the reason that the contract has not been fulfilled.

Q. If this money is now in possession of some other person and not in

the Finance Department, state if there is any law supporting this action?

A. It is customary for the Superintendent of Public Works to draw and pay the amounts payable on a contract, in accordance with its terms, and upon the completion of the work to draw and pay whatever balance may be due.

Report laid on the table to be considered with Senate bill 4.

Minister Cooper announced signing by the President of Senate bill 27, "An Act to Amend Sections 4, 50, 57, 71, 73, 75, 76, 77, 55, 62 and 63 of Land Act of 1895, relating to Public Lands."

House bill 73, relating to the manufacture of wines from grapes of Hawaiian growth, passed third reading unanimously.

First reading and passage of Senate bill 37, relating to the eligibility of persons to hold public office. Bill read second time and referred to the Judiciary Committee. Continuation of third reading of Senate bill 4.

Speaker Kaunika called Rep. Paris to the chair and then took his place on the floor with the members. When the time came he moved to insert an item of \$500 for repairing Deesha Lane. This was carried.

Rep. Loebenstein next arose and moved to insert an item of \$35 for the removal of the tree in Vineyard street. It was the intention of members to keep putting in small items, they might as well go on, even putting in five cent items, he said.

The remainder of the forenoon was taken up with the consideration of various items in Senate bill 4.

The House took a recess at 12 m.

## AFTERNOON SESSION.

Continuation of Senate bill 4. Rep. Robertson moved to strike out the item of \$500 for lights at Kailua, Kona. There was quite a discussion over this and the item was carried by a majority of one vote. The items for lighting Hookena landing and landings on Oahu, outside of Honolulu, were stricken out. The item for lighting Kamae landings was allowed to remain in the bill by a narrow majority.

When it came to "Forests and Nurseries," Rep. McCandless moved that the item of \$5,000 for Honolulu Park Commission be raised to \$7,500. The commission was already \$1,300 in debt from the last two years. Minister Damon said it was about time the rich people of the city should come forward and donate something for the public. The Government should not be expected to do it all. The item passed at \$5,000 as in the bill.

The recapitulation of the bill was postponed and it will go to the Revision Committee for the purpose of having the amounts for the various departments footed up again as there have been a great many changes.

When it came to the end of the bill and the section containing the provision that fifty per cent of the labor employed to do the different contract work shall be Europeans and Hawaiians, Rep. McCandless moved that the word "American" be added as he did not believe the word "European" covered Americans. This was done.

Attorney-General Smith then arose and moved that the provision just mentioned and inserted in the second reading of the bill, be stricken out. He did not believe that it was a good thing to have the bill appear on the statute with such a provision. It certainly would look very much like discrimination against Asiatics and such thing was not good policy in a matter of the kind. The motion of the Attorney-General was seconded by Minister Damon who said that the Chinese and Japanese were destined to become a very important factor in the affairs of the islands. As long as they were treated as they should be they would certainly do what was right but as soon as they found they were being discriminated against they would retaliate and they would be no mean factor.

Rep. Richards said that class legislation in this matter did not bother him a little bit. Up on Hawaii white men were in the habit of taking contracts and then giving the work to Japanese who did not half do what was expected. Certainly he would not vote to have the clause stricken out of the section. He believed it would do great good on Hawaii.

Rep. Robertson called the attention of the Ministers to the fact that only fifty per cent of the labor was reserved for Hawaiians, Americans and Europeans. He did not see that the Asiatics had any room for complaint when fifty per cent was reserved for them. If any complaint was to be made it would certainly be on the side of the Hawaiians, Europeans and Americans.

It was sought to bring up various items that had been referred but the motion to adjourn was made. There were four votes on each side, the Speaker deciding the matter by voting in the affirmative.

## FINISHED A BILL.

Current Appropriations Sent Through By the House.

At Saturday's session of the House the current appropriation bill was taken up as unfinished business and finally passed on third reading.

The appropriation of \$5000 for the Honolulu Park Commission was reconsidered and the item raised to \$7500. Investigation had been made and members who, on the previous day, made objections, concluded to vote the extra amount.

The Public Lands Committee reported on the petition from North Kona, asking for an appropriation of \$1000 to construct two bridges in that district. The committee recommended that this be not granted.

The appropriation for schools on the Island of Hawaii was raised from \$22,000 to \$25,000.

In the matter of the petition of J. K. Nahale for damages sustained to his property in Kona, the majority report, recommending that the claim be not allowed, was adopted.

Senate Bill 26, relating to licenses for Notaries Public and for selling

milk, passed second reading. The milk license was changed from \$1.00 to \$2.50.

House Bill 87, relating to receipts from the store at the leper settlement, Molokai, was laid on the table.

House adjourned at 12 m.

## Heavy Realty Deals.

Paul R. Isenberg has sold to A. V. Gear a large tract of land on the town side of Telegraph hill for \$30,000. Mr. Isenberg bought the property a number of years ago from the late Dr. Geo. Trousdale. It is supposed that the tract of Gear &amp; Lausung will plot the firm at an early date and put the lots on the market.

W. C. Achi has secured by purchase the old Government Agricultural garden in Nuuanu valley and will subdivide the property.

A lady told us the other day she got the idea ours was so exclusive a stock that the prices would be so high she couldn't trade here. That's wrong. We have exclusive styles—yes! But in point of fact our prices are LOWER than many—and as low as any store that carries reliable goods. It's the very cheap that is the very expensive.

We are always willing to exchange or refund money on goods bought of us which are not entirely satisfactory, when returned to us in good condition within a reasonable time after purchase, but with the distinct understanding that all such goods returned will have all charges paid.

When sending for samples, or for information, write plainly your name and postoffice. After receiving samples, and they prove satisfactory, order quickly, and if possible make two or three selections, marking them in the order of your choice. This will prevent the delay required in sending new samples which so often happens when goods to match the sample required are sold.

It sometimes unavoidably happens that goods ordered are out of stock, and in such cases we take the liberty of substituting what, in our judgment, is equally desirable, both in quality and price. If not satisfactory in this case, please return at our expense. In our Grocery, Crockery and Hardware departments our stock is thoroughly complete and the range of prices is all that can be desired.

## Bargain in Shoes.

We hear the expression used constantly. So much so that in nine cases out of ten it really has no significance in connection with facts.

A bargain in shoes represents standard value, at the right price and at the right time.

The cheapest is not always the best neither is the best always the cheapest. Buy a good article and you will get satisfactory wear out of it in the long run. Buy a cheap article and it will keep you on the jump continually to duplicate, then you might buy shoes on this basis every week in the year and never get your money's worth. Turn over a new leaf and buy an honest shoe at an honest price. This is the kind of values we offer you.

## INCREASING THE WAGES.

The proposed law requiring that one half the labor to be done under Government contracts shall be awarded to Hawaiians and Europeans, that is the Portuguese, will considerably increase the cost of work, we are informed, and therefore increase the rate of taxation.

It is the Portuguese mainly and not the natives, who desire employment, for the natives do not eagerly ask for it.

The condition of many of the Portuguese is unfortunate. They have come into the town, instead of remaining in the country. They find that the Asiatics fix the price of labor, and with their large families find it almost impossible to live on plantation wages. Worse than all, from this aspect of the case, we steadily continue to educate their children to the strong desire for better things, and at the same time, entirely neglect educating them in the way of getting these better things and we push them against the Asiatics.

This bad state of things seems to make it necessary to do some dangerous legislation in the way of discriminating in their favor.

It may be expedient to pay the Portuguese laborers higher wages in the Government service, simply because they must be taken care of, but the better and reasonable way would be to provide a method of helping many of these laborers to emigrate to the other Islands, and aid them in getting homes of their own. It does the community great harm, so long as industrious Portuguese are compelled to pay enormous rents on Punchbowl, for land they cannot purchase. It creates justifiable discontent, and forces them to demand the highest wages. If these people were thoroughly organized politically, they would make themselves felt. It is the duty of the dominant party to see to it, they do not become discontented through injustice.

The theory of taxing the people in order to pay extra wages, is not a good one, but it is necessary, if there is no other way to provide employment for the idle who desire work but cannot get it.

## THE INCOME TAX.

If the members of the Legislature would read up a little on the numerous discussions of the merits of the income tax in England and America, they would get some valuable information on the subject.

Mr. Gladstone, speaking of this income tax said: "I believe it does more than any other tax to demoralize and corrupt the people." Lord Beaconsfield said in Parliament: "The odious features of this tax cannot by any means be removed or modified."

Prof. Thorold Rogers, M. P. and Professor of Political Economy, in Oxford, said in 1884: "Nobody defends the income tax. Every Chancellor of the Exchequer has condemned it in principle, and has continued it in practice."

And the Supreme Court of the United States (116 N. S. R. 631) says: "Any compulsory discovery, by extorting the party's oath or compelling the production of his private books and papers to convict him of a crime or to forfeit his property, is contrary to the principles of a free government. It is abhorrent to the principles of an Englishman. It is abhorrent to the instincts of an American. It may suit the purposes of despotic power, but it cannot abide the pure atmosphere of political liberty and personal freedom."

Neither Gladstone or Disraeli or the Supreme Court of the United States have any weight with some members of the Legislature, but their words might be taken as very meek suggestions to the members of it, that the statesmen and judges of the great Anglo-Saxon race have no use for this system of taxation, however excellent it may be in theory.

The Young men of the Research Club, who are getting an education in practical politics in these parts, should carefully follow up the discussion of the bill for an income tax. It illustrates the habit and practice of communities to work out their own salvation, with contempt for the experience of other communities.

It is admitted on all sides that an income tax is theoretically just and fair. But the writers on the subject entirely disagree as to whether or not it can be made practically fair and just. We quoted the other day the opinions of Gladstone, Disraeli, Prof. Rogers and the Supreme Court of the United States against it. Mr. Gladstone was recently called "one of the greatest finance ministers that ever lived." John Stuart Mill, whose works

are standard in all universities said: "the fairness which belongs to the principle of an income tax cannot be made to attach to it in practice," and that, "while apparently the most just of all modes of taxation, is in effect more unjust than many others that are prima facie more objectionable." His reasoning was sustained by the actual experience of the United States, under the income tax law of 1868.

To collect this tax it is required that every individual should exhibit his books and papers to an inspector.

We have here 20,000 Chinese, many of whom should pay this tax, if required by law. Does any one suppose that an inspector will be able to "make head or tail" out of a set of books kept in the Chinese language? The trained officials of the United States could only find, in 1872, 72,949 persons in a population of 38,000,000 who would pay any income tax. Their books were even kept in the English language. The Chinese book-keepers would defy any accurate examinations of their accounts.

The advocates of this tax may reply: "Let the Chinese go. Stick the white merchants and planters." This might be done. It is right here that the injustice of the tax is apparent.

Our point at present is to ask the young men of the Research Club to watch the history of this income tax, if its collection is provided for by law. Having before them the opinions of students and statesmen, let them see how the experimentalists of this Republic come out.

## ADMIRAL CERVERA'S CHIVALRY.

The chivalrous act of Admiral Cervera in sending a flag of truce to Admiral Sampson, in recognition of the bravery of the men who navigated the Merrimac into the channel of Santiago and there sank her, will be a swift wave of oil running from the Atlantic to the Pacific over the angry waters of American indignation against Spanish cruelty. It will not stop the deep and irresistible ground swell of purpose to end Spanish rule in Cuba, but it will quell the angry foam that flies from the wave tops.

All the world admires a chivalrous act, even if it is trifling or insincere. The people, the mass, the crowd, are instantly touched by kindness, and even over-estimate its value. Admiral Cervera has yielded no point. He has accepted no compromise. He has not modified his purpose to sink every American war ship, with its crew, if he can do so. He does not ask that the horrors of war be suspended. But he renews for a moment on the eve of the twentieth century, the sentiments of chivalry, which made the romances of the dark ages.

This one touch of nature, this suspending of battle, for a moment, in order to salute a daring act of courage and self sacrifice, will have an effect on the American mind that is inestimable. The Governor of Manila, by his foolish proclamation, roused the hatred of every loyal American. The act of the Spanish Admiral now makes it impossible for the American people or their forces to regard all of the Spanish people as ignorant and cruel demons. Not an officer of the American fleet will permit the Spanish officers to out do him in the amenities or courtesies of war, although the tension of the fighting attitude will not be relaxed for a moment.

## THAT VICIOUS REPORT.

The only issue raised by this paper regarding the proceedings of the committee of the House relative to the conduct of the Superintendent of Public Works is that it has not given him any trial, and has stated positively in its report, and not conditionally, that he is guilty of serious crimes.

Now in order to show that these proceedings, conducted under the suspicious leadership of Loebenstein, are not made in good faith, we ask the public to recall Article 35, Section 2 of the Constitution which provides that the Minister of the Interior shall, with the consent of the President, appoint or remove the Superintendent of Public Works. The Constitution also provides that each Minister shall be responsible for the conduct of the departments under him, and that he may be, himself, removed from office by the President and the rest of the Cabinet.

Now if Mr. Rowell is guilty of any one of the many charges made against him, all that any citizen, or member of the House needed to do was to step into the office of the Minister of the Interior and say, "Mr. Minister, that Superintendent of Public Works has broken the law in regard to a building contract (mentioning it), and he should be removed. I demand it." The Minister is bound under the Constitution to act, and if he does not, is liable to removal himself.

Why has not this perfectly simple course been taken during the last three years by the men who deem Mr. Rowell guilty of offenses? Why has it been left for Loebenstein to develop all of the quickening virtues, and go into this elaborate attack on the Superintendent, by Legislative machinery?

Is the Minister of the Interior incompetent or corrupt so that he cannot be trusted? Do not these children in the Legislative kindergarten see that by refusing to adopt the simple method of reaching the Superintendent, as pointed out by the Constitution, they virtually charge the Minister of the Interior with incompetency or corruption?

When that eminent patriot, E. B. Thomas, complained of the Superintendent because he did not get the contract for building the Engine house, and when Mr. Paris, of Kona, complained because he could not have it his own way about roads, why did they not simply follow out the constitutional method and call on the Minister to do his duty and remove Mr. Rowell?

When men resort to a round-about way of doing things, there is a suspicion that there is something that is not "square" in the proceedings, and that they are afraid of taking the simple method.

If the Minister cannot be trusted to pass upon the case of a dishonest official, of his own appointment, he should be removed. Possibly these members who have not shown much loyalty to the Government of their own creation, may suspect the Minister's honesty, and are restoring to the more elaborate, costly method of removal by impeachment.

If this is their plan, the Senate must sit in judgment, and we shall have an all summer session of the Legislature. They may impeach the Superintendent for crimes, and then impeach the Minister of the Interior for not removing a man guilty of crimes. Loebenstein hopes to rake the chestnuts of Rowell's removal out of Legislative fire, and like a cunning ape, is using the cats-paws of the members in pulling it out. He also adroitly uses the cats-paws of the Star, of the Independent, and of "Tomlin's Blizard" (with fresh blood from America) in doing it. Loebenstein has not yet been able to remove the President for treason. But he succeeds in playing some of the members of the House, and his newspaper allies for fools.

## UNWISE ENLISTMENTS.

He was a wise Colonel of a New York regiment who said to his men, after they had offered their services to the Government: "Very many of you have offered to enlist, because you are afraid of being called cowards, if you do not. Many of you have wives, children, or relatives dependent on you. You have no right to enlist until those who have none dependent on them have had the chance, nor, until you are actually needed. I will examine each case, and if I refuse you permission to enlist you can tell your friends that I am responsible and refuse to let you go."

In the hysterical patriotism of the crowd injustice is done, and much distress is inflicted upon women and children. We hear of young men, in the troops which passed through this place recently, that have left their families practically destitute. During the great war in America such cases were common and flagrant. After the hysterical period passed off, volunteering stopped, to a large extent, and the armies were recruited by conscription, which treated all alike.

In a war for the sake of humanity, inhumanity or suffering should not be an incident on the side of its defenders. War is savagery. Its miseries must be strictly bounded. Those who should go to the front are those who can be spared, with the least suffering.

It has been often said that the last two years of the American Civil War were fought out, on the side of the North by "Irishmen and Dutchmen." There is much truth, but not all truth, in the statement. General Sherman endorsed it. Just so long as good soldiers could be obtained from the foreign element, by purchasing substitutes, there was no reason why good men should be sacrificed. Should the war continue in the Philippines, some of the splendid fellows that stepped on our shores will perish, and for years to come their deaths will cause unnecessary suffering in many homes.

In these hours of excitement even Patriotism becomes restive in the hands of Common Sense.

## THE GREAT ALLIANCE.

The British papers continue to comment on Mr. Chamberlain's speech, in which he openly, and emphatically suggested an alliance between Great Britain and the United States. His suggestion is cordially approved of with the exception of some of the more conservative journals. These suggest that there have already been some epidemics of good will between the two countries, followed by equally severe epidemics of bad temper.

The proposed alliance must have a sound business basis or it can not last. No mere sentiment will sustain it.

As a rule, the Anglo-Saxons and the Latins do not make successful business partnerships. The racial traits prevent it. Even the Anglo-Saxons do not work well in harness with the Germans or the Russians. Temperament and habit tend to separate them. Political institutions and thought prevent

them from becoming congenial companions.

Between the British and Americans there is a strong similarity in racial instincts, in their political institutions, in the construction of their laws and the administration of them. Their business and industrial methods are also alike, and a common language brings them closely together. The separation of the countries by an ocean, and the unfortunate Revolution have kept them apart. Chauncey Depew said last year, that if there was a war between Great Britain and the United States, it would be largely due to the histories furnished the American school children that perpetuated the original grievances of the Americans and even misrepresented facts. But the new histories are less frantic now, and the Jingoes of the two nations don't make such dreadful faces at each other.

The British understand the value of foreign trade, and have built up an enormous shipping. The Americans have permitted their commercial flag to be virtually driven from the seas. The British desire to hold their enormous foreign trade as against the continental nations, and they need a strong and healthy partner. The Americans begin to see the absolute need of foreign trade, and that it may be secured through a partnership with the only nation that has points in common with them.

There is no sentiment in the proposed union. It is a matter of self interest in which racial resemblances and common ideas on political government make the union easy. It is given and take on both sides. And it is especially convenient in the state of present Christian civilization where the merchant marine must trade under cover of the guns of the cruisers.

In the period of the early part of the eighteenth century, the merchantmen were conveyed by ships of war. At the end of the nineteenth century, the world seems to be no better off.

If Great Britain will throw into the ditch with America, her great fleet, and a share in her foreign trade, and America promises to throw in her coming navy, and her growing strength, we shall see "The greatest show on Earth," as showman Barnum called his amalgamated menageries.

## JAPANESE CHIVALRY.

After the capture of the Chinese fleet at Wai-hai-wai, during the late Chinese-Japanese war, the Chinese Admiral Ting, after surrendering, committed suicide on his battleship, rather than face trial and death at home. Admiral Ito, who had received his surrender, was an old friend of his, and desired to give him the honor of military burial at his home in China. He resorted to this extraordinary and chivalrous method of doing it.

The Chinese war ships that had surrendered and were in possession of the Japanese forces, had become the property of the Japanese Government, and Admiral Ito could not dispose of them. But the warship on which Admiral Ting had killed himself had not been taken possession of. Admiral Ito thereupon said to the Chinese officers: "I do not accept the surrender of your vessel. Take her, and go to China with the body of your Admiral, and give him all the naval honors."

This is in its noble sympathy, and the enormous sacrifice of a valuable war ship, perhaps the most chivalrous incident recorded in authentic history.

Admiral Nelson, after the battle of the Nile, would have been startled if one of the seamen had, with permission, stepped up to him, on the quarter deck, made his bow, and handed him a printed pamphlet, saying: "Admiral, here is an account of yesterday's battle written by a fiddle hand."

We have before us a small pamphlet lettered, "A brief description of the battle of Manila Bay," by J. A. Wisner and H. F. Humphrey of the Baltimore crew, composed and published on the Baltimore, after the recent engagement. Extracts from it appear in another column.

The next newspaper ventures will be "extras" issued every half hour, in naval engagements, from the Flagship, and sold at the usual prices to passengers who have taken round trips for the war, in "liners" which can steam about at a safe distance from the engagements, and insist on having the news hot and immediately.

## Labor From Here.

Frank Wilburton, who since the wreck of the S. S. Kaala on the other side of this Island, has been doing odd jobs along the water front, left for San Francisco on the Peru yesterday with 89 Japanese laborers. His objective point is Clipperton Island off the coast of Central America, where he will attend to the work of shipping guano to America, Japan and these Islands. The job was given him by T. H. Davies & Co., who represent Arundel & Co. Mr. Wilburton will charter a vessel in San Francisco and will proceed to Clipperton Island with his gang of Japanese laborers. He expects to be gone about six months at the end of which time he will return here.

## A COFFEE FUNGUS

### A Guatemalan Coffee Expert Writes of Pests.

In Communication With Prof. Koebel—Leaf Disease That Has Given Much Trouble.

Since the recent communication from Washington, relating to the coffee leaf disease in Guatemala, further inquiries were made, especially to ascertain if the Ceylon leaf disease exists in Central America as stated by Semler in his work "Die Tropische Agricultur" vol. 1, p. 297. In writing about the Hemileia vastatrix, Semler states that in 1869 it appeared first in Ceylon and from here spread within a few years over the whole of India and the Malayan Archipelago, later it reached the Fiji Islands and Mauritius and during the last years has appeared in South and Central America in certain places.

July, 1894, the disease appeared for the first time in German East Africa, yet it had been present earlier at the later place, as Dr. Warburg found it upon coffee leaves collected at Victoria Nyanza by Stuhlman in March, 1892.

While at Sydney, Australia in '94, a letter was received from the Hamburg Company stating that the coffee trees at that time were all dying owing to the presence of the Ceylon leaf disease. During my visit in Mexico last summer coffee trees were examined in the States of Vera Cruz, Puebla, Oaxaca, Morelos and Michoacan, yet in no instance did I find any indication of a fungoid disease as mentioned by Mr. Dieseldorff. The larva of a small moth appears to be present everywhere, mining the coffee leaves and producing irregular brown spots of about one-half inch in diameter, yet never so numerous as to cause any injury. The mature insect could not be bred and may prove to be the same as in Brazil where the larva of a small white moth has, in former years at least, been very abundant and destructive. During 1883, while studying the cotton insects at Bonito, Province Pernambuco, 36,000 such mines were estimated upon every single coffee tree and the little white moths were swarming amongst the numerous dead leaves on ground.

As will be seen in the appended letter from Guatemala, the stilbium flavidum appears to be most severe in wet and shady places, from the Hemileia vastatrix the reverse may rather be expected, trees growing in dry and exposed localities succumb first to its attacks.

Coban, 21st de April, de 1898.  
A. KOEBEL, ESQ.,  
Honolulu.

Dear Sir:—In answer to your favor of 24th ulto, I beg to state that the Ceylon leaf disease Hemileia vastatrix has not so far been known in Central America. Semler is mistaken. The fungus which is doing considerable damage to coffee estates in wet position, especially where there is heavy, clayey subsoil is called, "Stilbium flavidum." The special agent of United States Department of Agriculture who has studied it is Mr. Walter T. Swingle, Division of Vegetable Physiology, Washington. The disease has been known to exist for the last 15 years and attacks especially older plantations and where the trees are planted too closely, so that neither sun, light nor heat can reach the soil. The leaves show small 1-4 or 1-3 inch brown spots, the fungus is shaped like a needle with a yellow seed bushel on top, soon afterwards the leaves and fruit attacked drop and the tree, although not dying right out, gives only 1-10th of the crop it ought to give. The drier coffee zones are exempt from the fearful attacks of stilbium, where it exists but does not flourish, but estates from 2,000 to 4,500 feet above sea level with cold stiff sub-soil, rainfall about 200 inches the year, trees planted at 2 to 2 1/2 yards square are bound to be attacked sooner or later. A loose soil or mixed with sandstone or slaty bits is comparatively free from stilbium. The best remedy so far is: 1—To avoid stiff soils in wet positions; 2—Plant at 3 to 4 yards square so that sun gets down to soil; 3—Clear off all shade; 4—Collect leaves on ground and burn them. I am now introducing the Bordeaux sauce, but cannot say what the results are, as I am just beginning my experiments. Your advice would be very welcome. Personally I have lost a small fortune through appearance of stilbium in my estates. There does hardly seem to exist an efficient remedy against fungus attacks. I have let all the Chrysolasmus loose, but cannot say whether they got on well. If I shall need more, I shall avail myself of your kind offer. Always at your service.

## A Trip Abroad.

Dr. Maxwell expects to leave for Europe on July 6. He will go by way of Canada in order to confer with the executors of his late younger brother's affairs, news of whose sudden death upon his ranch was brought to Dr. Maxwell by the last mail.

Dr. Maxwell will then go to London and will be some six weeks in Europe, and will return to Honolulu in October.

## Manoa Improvements.

Punahoa street and the Manoa valley road are being very much improved. A considerable force is grading and placing stone. In the valley proper the new residence of Minister Cooper is almost completed and work is progressing satisfactorily on the proposed Castle home. The indications are that within a very few years Manoa will become as popular a residential section as Makiki.

## Off for the Coast.

Among the departures for San Francisco on the Peru yesterday were the following.

John Ena, Vice-President of the I. I. S. N. Co., Mrs. Ena and two children. Mr. and Mrs. Ena go to bring their two daughters from school. It is their expectation to be back in six week's time.

Captain Campbell, Superintendent for the Inter-Island Co., goes to spend a six weeks' vacation in San Francisco. He will return to Honolulu with his wife who is now in San Francisco. Judge Perry and Miss Perry who

are off on a pleasure trip of a couple of months to the States.

Mrs. Winterhalter, who goes to San Francisco to join her husband, Lieut. Winterhalter of the U. S. S. Bennington.

Jas. F. Morgan, who will spend a three months' vacation in the States.

## The Blue Ribbon Meet.

What will in all probability be the last program offered at Cyclone park, will be put on next Saturday afternoon by the racing wheelmen of the city as a benefit for the Hawaiian Red Cross Society. A very good list has been made up and all the riders are in training. Grand stand tickets will be offered for sale this week at 50 cents. Bleacher admission will be two-bits. Following is the program so far as arranged. Other numbers will be added:

Half mile open, amateur, two heats and final.

Half mile open, professional, one heat.

Exhibition trick riding by Honolulu's Triby Fowler, Mike Mignel.

Two-thirds mile handicap, amateur, two heats and final.

Two-thirds mile handicap, professional, one heat.

Entries will close Wednesday at 3 p. m. with W. C. Weedon at Bruce Waring & Co.'s office.

## Capt. Gridley Dead.

The sad news of the death of Captain Gridley, late commander of the U. S. S. Olympia, which did such fine work in the fight at Manila, was received on the Peru yesterday morning. Captain Gridley was ill when he was in Hong Kong before departure to Manila and Admiral Dewey advised him to stay off the ship but he would not remain from the fight. When this was over he began to ill again and it was finally prevailed upon him to leave the ship and to go to his home in the States. He arrived as far as Kobe, Japan, where he died on Sunday, June 5th. His complaint was dysentery. The body of the late Captain Gridley will pass through here on the Coptic.

Commander Lamberton has been placed in command of the Olympia.

Captain Coffin, who passed through on the Peru, was a class mate of the late Captain Gridley at Annapolis.

## In Supreme Court.

A session of Supreme Court was opened in the Judiciary Building with the Chief Justice and Associates Frear and Whiting on the bench. Three cases were argued, as follows:

Walluku Plantation Company vs. Hale, water controversy.

Estate of C. Akana, land matter.

K. Holt, vs. Kaaukai, land matter.

There was quite an attendance of attorneys upon the opening of the court and the calendar was called as usual. Cases in which Judge Hartwell is counsel were postponed.

## Annexation.

A letter received here from the Orient by the Coptic has some annexation news current at that cable end. It is to the effect that the joint resolution "has passed." It is believed that the telegraphic advices were that the resolution had gone through the House and to the Senate. There are a number of people in Honolulu who believe that the most acceptable annexation news yet will be received from the coast by the Moana tomorrow.

## A Trip Abroad.

Dr. Maxwell expects to leave for Europe on July 6. He will go by way of Canada in order to confer with the executors of his late younger brother's affairs, news of whose sudden death upon his ranch was brought to Dr. Maxwell by the last mail.

Dr. Maxwell will then go to London and will be some six weeks in Europe, and will return to Honolulu in October.

## THE CHICORY BILL

Laid on Table at Committee's Recommendation.

House Raises Salary of Ministers.  
Unfavorable Report on  
Opium Bill.

### SENATE.

One hundred-sixth Day, June 20.  
The Chinese immigration act came up on third reading and passed without discussion. Senators Horner and McCandless were excused from voting as they had been absent during discussion. No votes were cast in the negative.

Notification was received that the House had refused to concur in Senate amendments to the bill relating to the jurisdiction of Circuit Courts and a conference was asked. The request was complied with.

The bill imposing a duty of 25 cents a pound on chicory was taken up with the recommendation of the Commerce Committee that the bill be laid on the table. Senator Baldwin said in further explanation that there was nothing deleterious in coffee adulterated with chicory. Until two years ago the adulterated coffee came from the coast. A duty was placed on coffee and now Hawaiian coffee is used as a foundation for adulteration with chicory by people who cannot afford pure coffee. The bill was laid on the table.

The Judiciary Committee brought in a substitute bill granting a franchise for a street railway in Hilo. The bill passed first reading.

At 11 o'clock the Senate adjourned.

### HOUSE.

The House took up for consideration Senate bill 5, now well known to the public and at once there was an attempt on the part of some of the members to raise the salaries of various holders of Government offices, while there was a strong tide against this.

While the Sergeant-at-Arms went out to look for one of the Ministers, Rep. Gear, under suspension of rules, read the report of the Committee on Health and Education on Senate bill 41, relating to the importation of opium. This was laid on the table to be considered with the bill.

The opium bill will undoubtedly provoke much discussion in the House and, from the looks of things now, it is very likely that the Speaker will have to cast the deciding vote. The report is given in another column.

Rep. Kahalo moved that the salary of the Deputy Marshal be raised from \$4,000 to \$4,500. The Attorney-General arose and said he was in favor of \$4,000. No explanation was made. Rep. Pogue stated that he believed in economy but he was likewise on the side of the fitness of things. He should certainly get as much as the Deputy Collector of Customs. He was sure that the attempt to keep the salary of the Deputy Marshal down to \$4,000 was due to the personnel of the office. It was not the man that should be considered but the work that was necessary to be done. Rep. Achi said that the Sheriff of Hawaii was getting \$5,000. The Deputy Marshal was above him and yet it was sought to keep his salary down. Upon being put to vote, Reps. Iseberg, Kahalo, Achi, Kaul, Pogue, Richards and Kaeo were found to be in favor of the raise. Rep. McCandless was the only one who stood up when the other side was called for.

Rep. McCandless wanted the salary of the Jailor at Oahu Jail raised. Rep. Pogue had voted for his friends. He felt he was entitled to the same privilege. The position of Jailor was an important one.

The salary of the Jailor was not raised. Then came the items under the head of Department of Education. The Commissioners of Education had set their heart on having a deputy inspector for Hawaii and another for Maui, Molokai and Lanai combined and such items had been inserted in the bill. The report of the Educational Committee, framed by Rep. Atkinson, had recommended the striking out of these two items and the appointment of a traveling normal inspector. Rep. McCandless said that Mr. Atkinson was a man very much used to such matters and his advice should be taken. Rep. Robertson moved that the items recommended be stricken out and that the department go back to the old order of things with an inspector and deputy inspector. The items for two deputy inspectors were stricken out and the other for a traveling normal inspector, passed.

House took a recess at 12 m.

### AFTERNOON SESSION.

Upon considering appropriations for school teachers, Rep. Iseberg made a plea to the Minister of Education that some effort be made to teach the Hawaiian children their native language. At the present time there were only about 60 per cent of the native children who understood their mother tongue.

Next came the consideration of the salary of the Minister of the Interior. This was raised to \$12,000. Then a motion to the effect that the salaries of all the Cabinet Ministers be considered, carried. A motion was next made to place these at \$12,000 each. Rep. Robertson asked that \$10,000 be the mark. The Treasury would cer-

tainly be in a sad state if this sort of thing continued. There would be no money left for the roads. The salaries were raised by a vote of 7 to 6.

The salary of the Surveyor-General passed at \$6,000. When it was read, Rep. Pogue said, sotto voce, "make it \$10,000."

When it came to the salary of draughtsman in the Survey Department, Rep. Kaul showed a fine map of Molokai that had been done by the present incumbent of the office, Mr. Chris Willis. The young man had been employed to do work for the United States Government at Pearl Harbor and complimentary advices from Washington expressing satisfaction, had been received. The young man's salary should be raised to \$2,400.

Then came a long discussion by the members on the attitude of certain members in not voting. This lasted about three-quarters of an hour or more. The item finally passed at \$2,400.

The salary of the Superintendent of Water Works was allowed to remain at \$5,400.

At 4 p. m. House adjourned but not, however, until even this matter had been thoroughly discussed.

### GUARDIAN CARTER.

Further Steps Taken in the Case of John K. Sumner.

Judge Antonio Perry held a rush session of the District Court yesterday forenoon and appointed J. O. Carter to be guardian for John K. Sumner, who has been declared non compos mentis. A pro forma objection was made by P. L. Weaver as attorney for Sumner. The bond of Mr. Carter was fixed at \$10,000.

The property that has lately been transferred by Sumner to his wife through Robt. Wilcox and others is ordered conveyed back again and the mortgage of \$5,500 made by Sumner to get into the rice business is ordered cancelled. The notes are declared null and void.

### Sons of Revolution.

Eighteen members attended the annual meeting of the Hawaiian Society of Sons of the American Revolution, held at the Safe Deposit building at noon yesterday. P. C. Jones was in the chair. Reports showed the affairs of the organization to be in satisfactory condition. There were four deaths during the past year. The present membership is fifty-six, with a number of applications in prospect. An election of officers to serve for the next twelve months was held and resulted as follows:

President—A. F. Judd.  
Vice-President—W. F. Allen.  
Registrar—W. D. Alexander.  
Secretary—W. O. Atwater.  
Treasurer—W. J. Forbes.  
Board of Managers—P. C. Jones, W. R. Castle, F. J. Lowrey.

### Is Touring the Globe.

Will L. Piers, representing the Chamberlain Medicine Co., was a caller at this office after the arrival of the Peru. Mr. Piers has just returned from a two years and a half trip through Asia, Africa and India. The Chamberlain Medicine Co. of Des Moines, Iowa, is one of the best known medicine companies of the United States and their goods are known in every market in the world. This company has advertised with the Hawaiian Gazette for many years and if their medicines are as good as their business principle it is no wonder that Chamberlain remedies meet with a ready sale.

### Mission Children.

The annual meeting of the Hawaiian Mission Children's Society will be held on the evening of Friday, June 24th, at half-past seven o'clock, in the Sunday school room of Central Union Church. At this meeting will occur the election of officers for the ensuing year, the reading of the yearly reports and the address of the retiring president. This is the important meeting of the year. Let all members be present.

### Presented a Banner.

At Oahu College yesterday morning Miss Mamie Widdfield presented to the Athletic Association, on behalf of the young ladies who had made it, a silk banner, worked in the college colors. The banner is the reward for winning the inter-scholastic base ball championship. For the Association the banner was received and acknowledgment made by Clarence Cooke.

### Stocks Jump.

There were several lively hours in the stock market yesterday. The most notable transactions were in Ewa, Honokaa and Makaweli. Ewa simply jumped. While there were sales at \$250, as much as \$400 was asked. It was predicted that Ewa would go to \$500. Honokaa was \$250 and Makaweli \$125. Better crop reports are coming in every day.

### A Special Line.

It was stated before a Senate committee a couple of days ago that the Honolulu Rapid Transit Company intended for one thing to establish a five minute service between the post office and the Government buildings. This would be a great convenience and the patronage would be very heavy at times and steady all day.

## A Baby Lion!

Did you ever see one? It is as playful and harmless as a kitten. You might have one with you for weeks and not suspect danger. But, beware! Some day it will surely spring, and the fight for life is at hand. It is just so with a cough. You may carry one with you for weeks and not think of danger. But the danger is there. Some day the fight will be on, and it is a question which will win, Consumption or You.

## Ayer's Cherry Pectoral

promptly cures all baby coughs; but it cannot always cure the full grown coughs of the most advanced stages of disease. Yet even here it will bring comfort and ease. Then use it early for acute colds, coughs, bronchitis and all pulmonary troubles.

Beware of cheap imitations. See that the name, Ayer's Cherry Pectoral, is blown in the glass of each bottle. Put up in large and small bottles.

### LOCAL BREVITIES.

A number of people are down with the measles.

Judge Kalua and wife arrived from Maui on Sunday.

The steamer Upolu sails at 2 p. m. Wednesday, instead of today.

The Summer School will open July 11, and will continue for three weeks.

The Hilo race horse J. R. will start in events here on July 4. The animal is still owned by Mr. Wilson.

Judge Kalua, of the Maui Circuit, occupied an honorary seat on the Supreme Court bench yesterday.

There are several candidates for the post of Deputy Auditor-General. Geo. W. R. King's name is on the list.

From the beginning of this year up to May 29th, 1,093 cases of plague, resulting in 723 deaths, were reported in Formosa.

There are about a hundred Honolulu people who are trying to get accommodations on the Alameda for San Francisco.

Dr. Hyde is thought to be on the high road to recovery. So much better was he yesterday that he was able to come down stairs for a short time.

W. D. Dale, engineer at Naalehu, Hawaii, and Miss Bessie Corbell were married Thursday afternoon at St. Andrew's Cathedral by the Rev. Alex. Mackintosh.

Word is received that water has been struck at 85 feet at the first boring for the proposed new plantation on Lanai and there is a strong and steady flow.

Henry C. Meyers, at present a clerk in the office of the Minister of Interior, is said to be a formidable dark horse candidate for the new billet of Deputy Auditor-General.

Captain Coffin, formerly of the U. S. S. Charleston passed through here on the Peru on his way from Japan to his home in the States. During his stay he was a visitor aboard the Mo'hican.

All the race horses that started on June 11 are in training for July 4. L. L. McCandless is rather doubtful about entering Irish Lassie in the free-for-all. Colonel Cornwell will start Red Pike in half mile events.

The marriage engagement is announced of Wm. H. Wright, Deputy Tax Assessor for Oahu and Miss H. K. Gandall, of Hanamaulu, Kauai. There are no more popular young people in the Islands than these two.

There is a new race horse here for the July 4 meet. The animal arrived per sailing vessel last week from the Coast and is said to be a good one. It belongs to local but that usually has an interest in all the good things going.

The Washington Star says that the quartermaster's department has contracted for 50,000 canvas suits, designed especially for the use of troops in tropical countries, and they are being shipped rapidly to the mobilizing points.

News was brought on the Peru yesterday that the Coptic's passenger room had been entirely engaged in China and Japan. This made it necessary for several who expected to go on her, to rush matters and take passage on the Peru.

The schooner Labrador is in the same position as she was when she struck several days ago off Makana but the Attorney-General has belabored her boats, tackle, apparel, furniture, opium, etc. The order to the Marshal to take the schooner in custody has been given and the case will come up for trial in the Circuit Court on June 27th.

The club loaned the hall to the Red Men for their installation of officers on Friday, July 1st next.

Although nothing is as yet definitely settled, it is understood that in the removal of the club room to another portion of the Waverley building the change will be more convenient for the general objects and arrangements than at present, although the main hall will not be quite as large for entertaining purposes.

The club will assist in receiving the Boys in Blue.

### Railroad Officers.

All who attended the meeting of the Oahu Railway and Land Company yesterday was immensely pleased with the reports of the various officers and especially with the account of affairs rendered by the General Manager, B. P. Dillingham, who told of the extension made and of the building in progress as well as the encouraging indications of a steady growth of business. These were the officers chosen by the stockholders:

President—S. C. Allen.  
1st Vice-President—J. B. Atherton.  
2d Vice-President—W. F. Allen.  
Secretary—W. G. Ashley.  
Treasurer—M. P. Robinson.  
Auditor—W. M. Graham.

These officers with Jas. B. Castle, H. M. von Holt and Jas. G. Spencer, constitute the directorate.

### LORD WOLSELEY ON THE WAR.

LONDON, May 24.—Lord Wolseley, the commander-in-chief of the British army, in conversation today said:

"The United States would make a mistake in attempting to invade Cuba with the volunteers who are not fully drilled and disciplined. If that was done the United States might expect heavy reverses when those troops encountered the trained Spanish troops on the island. It would be a grave error to underestimate the strength of the adversaries of the American troops. I would regret to see the Americans even temporarily beaten, as my sympathies are with them."

Continuing, Lord Wolseley said: "It is fortunate for the United States that this war is not with a first-class power, for it is evident that in such an encounter they would be badly beaten in the beginning, though I believe the Americans able to defeat any nation in the long run."

### OUR REPUTATION

For fine watch work is widespread; but we wish to impress the few who may not yet be in line, with the necessity of sending their watches when out of order to us directly; and not first allow every tinkler to ruin the watch, after which, send it to us for proper repairs.

The Cost is always more to you, after such treatment; ever so much better to send it right down to us, for we allow nothing but perfect work to leave our workshop.

You will be surprised, too, how much cheaper it will be, and how much more satisfactory to you.

Watches are securely packed in wooden boxes, and returned in the safest possible manner.

## OUT IN PUNAHOU PASTURE

Regular Movements and a Lot of Fancy Maneuvering—Runaway. Capt. Parker's Company.

A quorum of the House, a number of Government officials, the members of a golf club, representatives of the press, a hundred tourists and visitors from the other Islands, a dozen military men and a strong delegation of citizens, including many ladies and gentlemen a wheel, witnessed the police parade and drill in Punahou pasture, Manoa valley, on Saturday afternoon last.

Marshal A. M. Brown directed the display. The elements of his handsome and smart command were forty-eight foot police under Capt. Robt. Waipa Parker and the company of mounted officers under Capt. Spillner. The sun was shining brightly and there was a fresh breeze from the head of Manoa. A tent with refreshments for distinguished guests had been provided by the commander-in-chief. At the head of the House party was Representative Isenberg, who held the reins over a spanking team. Representative Pogue was the principal critic on horsemanship. At home this gentleman is one of the rough riders of Maui.

The field for drilling is a level sweep between two knolls, and if the stones were cleared away would be an absolutely perfect place for maneuvering a much larger force than the police can muster. It was a happy thought to carry the foot officers from town in busses. The way is long and part of it dusty and sharply up grade. The drill began about 3 o'clock and continued in a spirited manner for nearly two hours.

First the cavalry was put through company movements and executed every command with the prettiest precision. Then came a skirmish line showing and next, in the company formation, a battle formation. The firing line was sent out on foot. A good many blank cartridges were used. The cavalry company does exceedingly well at fancy drilling. One formation is a circle with the horses all lying down and the officers firing over their prostrate mounts. There was the flavor of the theatrical in the rescue at one time from the firing line of a wounded man by two messengers from the reserve. The man was raised up behind one of the riders without any dismounting and carried to the rear with the horse bucking. It was in such work as Capt. Spillner's men are called upon to do in the course of patrol duty that they excelled at drill. A native pony pulling a light break was sent across the field at a top gallop. Two of the officers were started in pursuit and on each trail succeeded in overhauling the outfit in short order. Geo. Moan, one of Capt. Parker's men, sat in the brake and pulled the whip vigorously. This was a very exciting act. A boy was mounted on a horse and rode for the hills at break neck speed. Two of the cavalymen went after the runaway. One officer lifted the boy from the saddle while the other took charge of the frightened horse. The mounted force is in a high state of proficiency.

The fame of Capt. Robt. W. Parker as drill master is one of the institutions of the Islands. He is a finished tactician and has a fine control of men. In the company for display Capt. Parker's lieutenants were Capt. Kamae and Lieut. Warren. For drill or campaign service the foot police have a uniform of bluejacket hats, black sweaters, blue trousers and brown leggings. They are armed with the Lee-Remington rifle. Capt. Parker put his command through the manual of arms and the school of the company without a break. The men size up beautifully and are all sturdy, healthy and erect and with the snap of a cadet company. They made a most attractive stage picture moving over the sward like a machine and handling their rifles to trust cadence. The company did open order drill and loading and firing by command and firing at will in the best possible style. The triumph of Parker and his men came at the ten-minute exercise of manual of arms and bayonet without command. In this climax the forty-eight men did something that appealed to all the spectators as little less than marvelous. The manual of arms was old style, but neat and like everything else, in absolute unison. The bayonet exercise was from the British, German and American regulations and it would require extensive traveling to see anything quite so good.

Marshal Brown, Spillner, Parker and the men themselves were most heartily congratulated on the splendid showing made and during the drilling the applause was frequent. The only drawback to the field work was the necessity of operating in single rank and the errors of the afternoon, such as would be checked by military judges, were very few indeed. The acrobatic feats of the men are in first class condition and quite complete. The mounts of the cavalry company are handsome Island horses well trained.

An Island Quartette. John Ena, Jas. F. Morgan, Captain Campbell and Fred B. Oat were passengers by the Peru yesterday and

flocked together. Morgan has promised to save Ena from the persuasions of the auctioneers and gold brick men of the coast. Mr. Ena was born here and is making his first trip abroad. All of the quartette members are taking the voyage on account of health. In the absence of Captain Campbell Captain Godfrey will have charge of the comings and goings of the Inter-Island steamers.

## BACCALAURIATE.

Address of Rev. Mr. Birnie to Oahu Class of 1898.

The auditorium of Central Union church was well filled with young people last evening, eager to listen to Rev. Douglas Putnam Birnie's address to the graduating class of Oahu College. The pastor referred to the occasion as the parting of the ways. The students had ended their school days in Hawaii and would now brush up against the sterner realities of life.

Mr. Birnie stated that he would not speak of the pathway of sin and vice. That way did not appeal to them. He would speak of two roads that run along closely to each other. One was good but the other was better. He was confident that the student who followed the road of selfishness would bring on bitterness in the years that are to come. He urged that every member of the graduating class of '98 would seek to spread their knowledge. He considered it every man's duty to do this. The pastor referred to the success attained by Hawaii's illustrious son, General Armstrong, during his lifetime. One of the grandest monuments in all the United States today stood to his memory in the Hampton school which was founded by him. Mr. Birnie sincerely hoped that there were Armstrongs in the class of '98.

## LABOR PROBLEM.

Board Inspector Dispatched to Plantations.

Wray Taylor sailed away on the steamer Mauna Loa yesterday on an official mission. He is making a tour as inspector and secretary for the National Board of Immigration.

The first stop of the Inspector will be at Wailuku plantation on Maui. Here Mr. Taylor will investigate the trouble with the Manchurian laborers, reported in this paper a few days ago. There are thirty-eight of these Manchurians still in jail at Wailuku and Kahului for refusing labor and rioting.

The Board has directed Mr. Taylor to make close inquiry at Spreckelsville concerning the reports of numerous desertions from the Quong Fung and Sam Sing camps.

After leaving Spreckelsville, Mr. Taylor will go to Paauhau, Honokaa, and adjoining plantations on the Island of Hawaii and investigate thoroughly the matter of desertions of both Chinese and Japanese contract laborers from this vicinity.

All parties interested will have full hearing during the investigations made by Mr. Taylor. The secretary takes along both a Japanese and a Chinese interpreter supplied by the labor companies.

## Good Experting.

The members of the Senate Committee in whose charge the matter of investigation into the affairs of the various departments of the Government was given, are very much pleased with the work of their expert, G. W. R. King, who has completed seven reports for them. The work is neat and to the point, showing just what was wanted by the committee. No comments whatever are made on the work of the departments. There is just a plain statement of facts and that is all.

## Suicide on Kauai.

The James Makee brought news from Kapaau Sunday morning that a Chinese contract laborer, aged 18 years, had committed suicide by jumping into the Kealia river. This happened on Tuesday last and the body was not found until Thursday. He was a new laborer at Kealia and it is supposed that he became despondent over certain reverses.

Mr. Isaac Horner, proprietor of the Burton House, Burton, V. V., and one of the most widely known men in the State was cured of rheumatism after three years of suffering. He says: "I have not sufficient command of language to convey any idea of what I suffered, my physicians told me that nothing could be done for me and my friends were fully convinced that nothing but death would relieve me of my suffering. In June, 1894, Mr. Evans, then salesman for the Wheeling Drug Co., recommended Chamberlain's Pain Balm. At this time my foot and limb were swollen to more than double their normal size and it seemed to me my leg would burst, but soon after I began using the Pain Balm the swelling began to decrease, the pain to leave, and now I consider that I am entirely cured. For sale by all druggists and dealers. Benson, Smith & Co., Ltd., agents for Hawaiian Islands."

The amusement event of this week will be the Red Cross Blue Ribbon meet at Cyclometer track on Saturday evening.

## IN STOCK MARKET

Has Been Lively Week in the Island Securities.

## EWA HIGHWATER MARK

Below Par Four Years Ago—Honokaa and Oahu—An Exciting Day and Good Prospects.

(From Saturday's Daily.)

This has been an interesting and active work in Hawaiian securities. Deals have been numerous. The trade yesterday was exciting and the week will close with a number of important transactions. There has been no fluctuation. The rise in all directions has been steady and marked. Money seems to be easier.

Ewa, which was selling below par four years ago went at \$333 yesterday, a block fifty shares was snapped up eagerly at that figure. There was a demand all through the day and all the brokers are looking for this gilded security.

Reports from Honokaa plantation had the effect of making that stock move up a few points. There were sales yesterday at \$240. It is less than a year ago that Honokaa was looked at askance.

The encouraging prospects of Ewa and the daily notes from Oahu have resulted in establishing a more solid foundation than ever for stock of the newer plantation. Oahu assessable, \$65 paid up, sold readily yesterday at \$97 and there are signs that it will command a still better price.

The owners of Olowalu stock are being congratulated by their friends. Up to a few months ago there were no sales at all in this corporation. The stock was hawked about \$50. A few of the shrewd ones bought. There has been one sale of Olowalu this week at \$95 and the holders are not at all anxious to dispose of their security.

Makaweli holds its own in a manner that vindicates the judgment of those who have held to the stock in the belief that it was good as any. There were a number of deals in Makaweli during the week. One occurred yesterday with the figure at \$120. Makaweli has only \$70 paid up, with par \$100. All the other stocks mentioned above are of the par value of \$100 a share and all are fully paid up. Ewa dividends are yet to come, but will be very handsome. The Ewa crop, as noted yesterday, will be larger than ever before.

Mutual Telephone is strong, with unsatisfied demand for the stock at good advance.

It is known that \$150 shares of Hart & Co., Ltd., have changed hands during the week. The sale figure was \$11, par \$10. This is a new stock that has established itself firmly.

Hawaiian Electric continues to advance.

There have been during this week a good many really transactions. Land values are growing steadily. The principal demand is for residence lots.

A merry party of some 20 or more left the city on the J. A. Cummins at the early hour of 2:30 o'clock Sunday morning. They went to Bird Island, saw the sights and returned to the city at a little after 5 o'clock on the same day. Native singers were taken along and a fine time was had.

W. R. CASTLE,

## HE IS ADMIRER

University President Writes of  
New Pastor.

Suitable Successor to the Retiring  
Central Union Leader—Has Been  
Always a Hard Worker.

One of the very warmest recommendations for the new pastor of Central Union, Rev. Wm. M. Kincaid, comes from Prof. F. A. Hosmer, president of Oahu College, from President George E. MacLean, Chancellor of the University of Nebraska. A letter on the subject was written at Lincoln, Neb., on the 29th ult. Prof. MacLean opens with mentioning that two of the young men who were in a military company organized in Massachusetts by Prof. Hosmer, have been appointed to lieutenancies in the United States forces. The following is in part what is said of the man who is to succeed the Rev. D. P. Birnie, resigned:

"I also learned that your church was in need of a pastor, I believe I know just the right man for you, the Rev. Wm. M. Kincaid of Andrew Presbyterian church of Minneapolis, Minn. He was a classmate of mine at Williams College, where he was distinguished by his thoughtful scholarship. I attended his church for eight years at Minneapolis. He came to us from the First Baptist church at San Francisco, where he had been very successful for nine or ten years. A high sense of honor caused him to leave the Baptist church and by doing this he broke away from a congregation that gladly would have kept him. He was born in the Dutch Reformed church and made the Presbyterian church the choice of his manhood. He is both a pastor and a preacher. He speaks without notes. His sermons are strong, thoughtful and spiritual. I have not been able to find preaching which averages so well as his and I miss him greatly. After I came to Lincoln he was called, three years ago, to the First Presbyterian church of this city, but declined on account of the objections made by his parish. His present church has doubted his membership and more during his pastorate. It has erected and paid for a fine stone building. He has become the preacher for the students in the University of Minnesota. He is not only successful in bringing them to hear him preach, but in organizing them and young people generally for religious study and work. His people are devoted to him and would be distressed by his removal. Nevertheless I think he should move on account of the illness of his son, a boy of 13. I have assumed you do not desire a green young man, but a mature man of experience and of full vigor. Mr. Kincaid is artistic, cultured, poetical, but at the same time not a creature 'too bright or good for human nature's daily food.' He is progressive in thought and methods of work, but sound in the essentials of the faith. He has traveled in Europe and is a widely read man. His wife is a lovely lady and a tactful helper."

The Rev. Mr. Wm. Kincaid will be here in a couple of months now. He was strongly endorsed by a number of very prominent men in the United States.

## COMMENCEMENT DAY.

Maunaloa Seminary Graduates  
Its Pupils on Maui.

MAUI, June 18.—The annual commencement exercises of the Maunaloa Seminary, Maunaloa, were held on June 15 from 9 to 1:30 o'clock.

On Friday, the 17th, a Japanese laborer had both legs broken by the falling of a heavy pipe while at work on the new pump at Paia plantation. He died from his injuries an hour later at the hospital.

During the 11th, Misses Eva and Ethel Smith of Paia were thrown out of a brake on Maliko gulch road. At the top of the gulch toward Haiku, their horse became frightened at some lumber on a small cart and began to run and kick in a most frightful manner. The young ladies were thrown out at the turn of the road leading down the ravine and were only slightly injured.

The 23 Waiuku plantation Chinese were acquitted of the charge of desertion this week.

The barkentine George C. Perkins, Maas captain, arrived from San Francisco on the 14th. On the 16th the schooner Mary Dodge, Hansen master, sailed for San Francisco.

The weather is pleasant with strong trade winds.

## MIXED GAITS.

An Exciting Catch-as-Catch-Can  
Horse Race.

An impromptu match horse race, mixed gaits in harness, best two in three heats, between Chas. J. McCarthy's "Bob" and George Lycurgus' "Mary" took place on the park track yesterday afternoon. Jack Gibson drove "Bob" and Durfee "Mary."

The race was a mile dash go as please, catch weights. The first heat,

made in 2:32, was declared a dead heat. After a short rest the second heat was run off in the excellent time of 2:24. The horses kept well together all the way around and finished side by side again making a dead heat. In two instances on the back stretch Mary came near carrying Durfee into the fence and had not Durfee called to Gibson to "Get out of the road" serious results might have followed.

Many were of the opinion that the race was decided in the first heat and a protest was suggested. Rather than argue on the merits of the race, the Major said that he would accept defeat and the dinner was on him.

Those who were in the paddock when the horses were driven out expressed surprise at the manner in which "Bob" stepped out. "Just like Wood" was the comment of all. It is understood that the next match is to be a running race, mile dash, owners to ride.

## Coptic Again.

The O. & O. S. S. Coptic, Sealby commander, arrived in port Saturday forenoon, after an absence from this port of some five months. She made a very quick trip from Yokohama, which port she sailed from at 6 p. m. on the 9th inst. The Coptic sailed for San Francisco at 8:45 p. m. on the day of her arrival.

The Coptic brought the news of the change in arrangements of the disposition of the late Captain Gridley's body. The funeral services took place in Yokohama on the 9th. The body was to have been cremated there and the ashes returned to the States.

## No Mail Lost.

In one of the afternoon papers yesterday was a short article on the loss of a mail from San Francisco. If such is a fact, the mail referred to was never despatched from the post office in San Francisco. The post office papers here show a mail dispatched from San Francisco on the 20th of May 28th. The date of arrival here was June 4th. The next mail was dispatched on the U. S. S. Mohican, which sailed from San Francisco on June 5th and arrived here on the 15th. No mail was dispatched between these two boats.

## FARMER HOPKINS' EVIDENCE.

HE TELLS ABOUT THE SUFFERING  
OF HIS DAUGHTER.

A Victim of Nervous Prostration and  
Neuralgia Saved After Her Physi-  
cian Abandoned Hope.

From the Republican, Columbus.

While in the neighborhood of Rugby, Indiana, recently, a reporter was told that Miss Clara Hopkins, daughter of Mr. Dennis Hopkins, a prominent farmer of Bartholomew County, had been the subject of a remarkable transformation. The reporter decided to investigate and learn the particulars. He was driven to Mr. Hopkins' handsome country home, where he had an interesting conversation with that gentleman regarding the illness of his only daughter.

"You have been correctly informed," said Mr. Hopkins, "for Clara has indeed had a severe siege. She tried Dr. Williams' Pink Pills and they did her more good than all other medicines together that she ever took. A few boxes of that medicine accomplished the cure of a case in a few months which had baffled physicians for years."

"About three years ago her health began to fail. The doctor who attended her said this was caused by weak digestion. This produced nervousness, which was accompanied by neuralgic troubles, which at first was located in the nerves about the heart. Of course this was a dangerous location for any such trouble, and she rapidly grew worse, notwithstanding that the physician was treating her. This continued till a year ago last November, at which time she was almost constantly confined to her bed. The neuralgia became gradually worse, and finally she was a confirmed victim to it."

"Nervous prostration set in, and she was soon all run down. Her blood was impure and watery, and her complexion became colorless. She had no strength, and the least noise irritated her, she was so nervous. We had another physician, and he treated her steadily for a year without doing her any good. In fact it seemed that she was continually becoming worse. He finally gave up the case as hopeless, and advised us to get Dr. Williams' Pink Pills, as he said that they were the only thing that would benefit her."

"I procured a couple of boxes of the pills, and found that their use helped her considerably. She kept on taking them till she used about a dozen boxes, with the result that she was entirely well, and since then there has been no symptoms whatever of her old trouble. Dr. Williams' Pink Pills are certainly a wonderful medicine, which did a wonderful good in Clara's case, doing what several physicians failed to accomplish."

Everywhere Dr. Williams' Pink Pills for Pale People are recognized as a specific for diseases of the blood and nerves. For paralysis, locomotor ataxia, and other diseases long supposed incurable, they have proved their efficacy in thousands of cases. They are one of the greatest blessings ever bestowed upon mankind.

# IT IS WILLIE ROTH

Won Out in Well Played Tennis  
Finals Yesterday.

HE IS NOW CHAMPION OF 1898

Clarence Cooke Put Up Good Opposition—Many Spectators  
See the Match.

The tennis tournament in singles is over and Willie Roth, a member of the Junior branch of the Pacific Tennis Club, stands undisputed winner, having bested Clarence H. Cooke of the Senior branch of the same club in a

WILLIE ROTH.  
Tennis Champion, 1898.

very hard fought and interesting match. Roth is yet in his teens and, if he continues to improve in his playing he will be a wonder. He has demonstrated during the past week his supremacy over the remainder of the players of the city and over the senior members of his own club. However, there is no disagreeable feeling entertained for him for the boys are all glad to see the boy win. He is a quiet, unassuming young fellow who never brags about his playing and who is always ready to concede a doubtful point to the other side. In this manner he has won himself a place in the hearts of the members of the P. T. C. who all join in giving three cheers for the youthful winner of the tennis singles laurels of the present season.

The club house of the P. T. C. and the lawns surrounding, were crowded with friends of the club yesterday afternoon. The finals in singles was the drawing card. Clarence H. Cooke of the P. T. C. Seniors and Willie Roth of the Juniors were the contestants. E. R. Adams was chosen umpire and S. G. Wilder of the P. T. C. and W. A. Wall of the B. T. C. line men. Cooke took the first set and served, winning the next five games. He lobbed beautifully and sent swift returns down the side lines past Cooke. The latter was not long to catch the drift of Roth's play and won the next three games, making the score "deuce." He picked out Roth's weak points nicely and sent his returns right to those places. Roth became a little careless and Cooke saw his opportunity, winning the first two games by his serve and fine playing at the net. Roth appeared a little frightened at first but soon showed an improvement, winning the next two games. This gave him the first set. Score 7-5.

In the second set Roth and Cooke came forth, apparently as fresh as when they began. Roth played his criss-cross play and drives to advantage, winning three games in succession. Cooke then took a brace and won two. Then Roth followed suit for two. The next game was Cooke's and the last Roth's. This gave the set to the latter. Score 6-3.

The sets were one-all. Cooke took the first game and then Roth the second, winning out on a score of 0-49 by magnificent serving. Cooke took another game and then Roth won three in succession, these by adopting Cooke's own game of short "chop" strokes. Cooke braced and won another game. Cooke did the same again and then Roth took the last. It was a hard fight, but the boy won. Score 6-4.

In the fourth set, Cooke showed signs of a winded condition. He had fought a hard, stubborn fight. He took the first game and then Roth managed to get the second. Cooke took the third game and then Roth made five in succession, winning easily.

This gave the junior member the match of best 3 out of 5 and won for him the honor of being singles champion for 1898.

Roth was enthusiastically greeted after the contest and three cheers were given in his honor.

The many people present seemed to enjoy every moment of the match.

This was shown by frequent and hearty applause.

Following is a review of the sets:

1.—Cooke, 7-5.

2. Roth, 6-3.

3. Roth, 6-4.

4. Roth, 6-2.

The first of the men's doubles will be played as follows: At Pacific courts

A mountain climbing cat has taken its station on one of the Swiss mountains, and goes up 3,200 yards with tourists, to share their lunch at the top.

The most extraordinary plant known is the "traveling plant," which has a root formed of knots, by which it annually advances about an inch from the place where it was first rooted.

Miss Fay Fuller, who has been appointed Harbor Mistress of Tacoma, is the only woman in the world holding such a place. She became prominent in the West a number of years ago by being the first woman to ascend Mount Tacoma.

Longfellow's daughter has written to the publishers of her father's works to explain that his pronunciation of the word Hiawatha was "He-aya-tha," with the accent on the "wa" which has the sound of a in mar, not as in war, as so many voice it.

In Louisville, Ky., recently a clergyman who was called upon by a friend to perform the ceremony at his wedding refused because he was in love with the girl himself. The girl overheard the statement, dismissed her betrothed and married the parson.

The natives of "Thurms" are turning Mr. Barrie's fame to commercial advantage. A lemonade manufacturer in the Kirriemuir district bears a label with a view of the famous "Window in Thurms" and a special brand of goods sold by a local shopkeeper has his inscription printed on its wrapper: "N. B.—Every packet bears a true picture of the Window in Thurms and Mr. Barrie's residence."

The death of Rev. Edward Bradley in New York recently was remarkable for the circumstance that he was a curate in an Episcopal Church of which his son, Rev. Edward A. Bradley, is vicar. The curate was nearly seventy-nine years old, and did not enter the ministry until he was fifty. For the last six years he had been his son's assistant at St. Agnes' Chapel on Ninth-second street, a mission of Trinity Church.

A discovery has just been made, says the New York Tribune, among the archives in the Vatican of a collection of medical prescriptions for diseases of the eye in the handwriting of Michael Angelo. It may be recalled that this famous artist was so much troubled by his eyes during the closing years of his life that he was almost blind when he died, and he seems to have made a record in his own handwriting of all the remedies that were described for him.

William C. Todd, of Atkinson, N. H., has endowed the Boston Public Library with \$2000 a year for the purchase of newspapers. Mr. Todd says he is "impressed with the increasing importance and influence of newspapers and the great demand for them by all classes of the community." He gives the money on the simple condition that the whole annual interest on \$50,000 be expended for newspaper subscriptions. The choice of the publications is left entirely to the library authorities.

# A FATAL TEA BOX

Coptic's Freight Falls on  
a Native's Head.

Death Followed in a Short Time.  
Man Was a Faithful Laborer.  
An Inquest to Be Held.

Keoni Wahineallau, native aged 50 while working as a freight laborer aboard the S. S. Coptic Saturday afternoon received an injury in the head. He died at the Queen's Hospital at 10 o'clock yesterday afternoon. Wahineallau leaves a wife and family. The skull was not fractured unless the break was inside. The wound shown on the scalp was a small one, a mere scratch. It is believed that the rupture of a blood vessel in the head caused death. The man seemed paralyzed.

The laborer was in the hold working under the forward hatch. Some freight had been piled above around the edges of the opening. A native in the gang of workers scammed over the pile of temporarily stored merchandise brought up to get at some Honolulu consignments. This native made such a jar on the pile that a tea box fell below. The box struck Wahineallau squarely on top of the head and he was unconscious at once. The man was taken to the hospital without delay. Several times he rallied somewhat, but the sinking spells became longer and longer till one took him out of the world.

Deputy Marshal Chillingworth has summoned these natives to hold an inquest: John Kuana, Hiona, Kealo, Lawelawa, Pamalo and Naholowaa. The coroner had the jury view the remains and will begin the inquiry at 10:30 this morning. The dead man had lived in Kewalo. He was steady and a hard worker and had been one of the Pacific Mail wharf gang for a long time. Archie Gillilan and others who knew the man were very sorry to learn of his death.
